NEPA COVERAGE FOR LDR COMPLIANT PONDCRETE SHIPMENTS – ADR-099-98

Per your request, we evaluated whether or not we had National Environmental Policy Act (NEPA) cover for Land Disposal Restriction (LDR) compliant pondcrete shipment.

According to our Kaiser-Hill NEPA Lead, Steve Nesta, "Waste shipping is considered a routine operation at Rocky Flats Environmental Technology Site (RFETS) receiving NEPA coverage from the 1980 Environmental Impact Statement (DOE/EIS-0064). Specifically, Section 2.6.10 addresses material shipments".

Based upon this review, we are adequately covered by NEPA and meet the Oak Ridge requirement to ship LDR compliant pondcrete waste to Envirocare for direct disposal.
